

Mauricio A. Malo D.D.S.
Financial Agreement

We are pleased to welcome you to our practice and are glad you trust us with your oral health. However, you must realize that;

- ┌ Your dental benefits program is a contract between you, your employer, and the insurance company. We are not party to the contract.
- ┌ Our fees are generally, but not necessarily, covered in full by the maximum allowance determined by your carrier.
- ┌ Not all dental services are covered benefits in all contracts, patient will be fully responsible for co-payment.
- ┌ Full payment is expected at the time services are rendered.
- ┌ If you have no dental coverage all payments will be expected at time of service.
- ┌ A 1.5% finance charge will be added to any outstanding balance over 30 days and for every month after.
- ┌ Unpaid balances in conjunction with attorney's and collection agency's fees are merely patient's responsibility.

Please note that the insurance company has 30 days, by law, to pay on dental claims. If your claim has not been paid in 30 days of submission, it has been our experience that the insured should become active in the collection of the insurance benefits. Therefore it will become your responsibility to settle the account balance with our practice and collect insurance payment from your insurance company.
